

## *Activity Card*

### *Design Your Own Paper Quilt*

*Keep your special memories alive by creating a quilt in the early settler tradition.*

*Ask the students to create 4 distinct squares that may illustrate their own traditions, special memories, pictures or words that describe what the students are thankful for.*

*This can be done on one sheet of paper, divided into four squares or the students can punch holes through all four squares around their edges and using yarn. Instruct the students to lace together the squares to form the quilt.*
